

SMART UI END USER LICENSE AGREEMENT

Version of 2 October 2026

IMPORTANT NOTE

Please read this END USER LICENSE AGREEMENT carefully before downloading or using any portion of the Software. If you do not read and agree to be bound by the terms and conditions defined in this document, you are not permitted to use the Software or any portion of it.

DEFINITIONS

The following definitions apply to the terms and conditions included in this EULA. The term "Software" means Smart UI, the user interface components for JavaScript, Angular, React, Vue and Blazor, distributed as the npm packages "smart-webcomponents", "smart-webcomponents-angular", "smart-webcomponents-react" and "smart-webcomponents-community" and the NuGet package "Smart.Blazor", its modules, components, framework wrappers, type definitions, all program files, source code, examples, demos, media, and documentation which are part of the Software package or published by the Author on its web site, as well as any portion of them. The term "Author" means jQWidgets Ltd. The term "AI System" means any machine-learning model, large language model, code-generation model or other artificial-intelligence system, together with any dataset, corpus, embedding, vector index or retrieval system built for it or used by it. The term "Text and Data Mining" means any automated analytical technique aimed at analysing text and data in digital form in order to generate information, which includes but is not limited to patterns, trends and correlations, as defined in Article 2(2) of Directive (EU) 2019/790.

TERMS OF AGREEMENT

This is a legal agreement between you and the Author of the Software. By downloading, installing or using the Software, you are consenting to be bound by this agreement. This Agreement sets forth the entire agreement between parties and supersedes all prior written and oral agreements or communications, negotiations, representations, and promises between them. If you do not agree to all provisions of this agreement you may not use the Software for any purposes. If any provision of this agreement is invalid or unenforceable under applicable law, the remaining provisions of this agreement will remain valid and fully enforceable. The Author grants you nonexclusive license to use the Software for designing, developing, testing, and deploying applications and websites you create. You must acquire a license for the Software directly from the Author or its authorized resellers. If your website or product has no commercial intent and does not generate any direct or indirect revenue you may acquire a license without paying a fee. For all other cases you must purchase a commercial license of the Software. The terms of this agreement apply to both commercial and non-commercial licenses. The Software is copyrighted and protected by copyright laws and international treaties. You cannot sublicense the Software unless you obtain explicit permission from the Author through an OEM license contract. All rights not expressly granted by this agreement are reserved.

REDISTRIBUTABLE MODULES

The Software includes redistributable files ("redistributable modules") intended for distribution by you to the end users of the products and websites you create. The redistributable modules include all JavaScript, CSS and image files that are part of the Software. Subject to all provisions and conditions of this EULA, you may distribute and include the redistributable modules in your products and websites, provided that all redistributable modules are made of the original redistributable modules included in the Software or modified versions provided by the Author or modified by you. You must ensure that all JavaScript files contained in the redistributable modules are redistributed or deployed to production in minified (obfuscated) format and contain all trademark and copyright markings. The redistributable modules may be distributed only as part of your products and websites, never on their own, as a library, or in a form that lets a third party use them to build products of its own.

ROYALTY-FREE LICENSING

The "Author" does not charge royalty fees. Subject to all provisions and conditions of this EULA, you may distribute royalty-free copies of the redistributable modules of the Software with your applications, products and websites.

TRIAL VERSION RESTRICTIONS

The author provides free trial versions of the Software. The trial versions are fully functional. You are allowed to download and use the trial versions only for evaluation purposes and for a limited time (30 days). The trial version should not be used for any purposes except for evaluation.

PACKAGE REGISTRIES

The Author publishes the Software on public package registries, such as npm and NuGet, and it may be served from mirrors and content delivery networks that copy those registries. Such publication does not make the Software open-source software, does not place any part of it in the public domain, and grants no right beyond those granted by this agreement. The readable files in the Software, such as type definitions, framework wrappers and examples, are licensed under this agreement like every other part of it. You may install the Software from those registries and keep copies of it in your organization's internal package caches and proxies for use by your licensed developers. You may not republish, mirror or host the Software, or any modified version of it, in any public or private registry, repository or download location offered to third parties.

LICENSE KEYS

License keys are issued to you for your own use under your license. You may not publish, share or disclose a license key, use a license key issued to another party, or disable, bypass or tamper with the license-key check, the evaluation watermark or any other license-enforcement mechanism of the Software.

INTELLECTUAL PROPERTY

All intellectual property rights such as but not limited to patents, trademarks, copyrights or trade secret rights related to the Software are property of the Author. You shall not modify, translate, reverse engineer, un-minify, decompile or disassemble the Software or any portion of it or attempt to derive source code or create derivative works, except to the extent that applicable law expressly permits such activity notwithstanding this limitation. You are not allowed to remove, alter or destroy any proprietary, trademark or copyright markings or notices related to the Software. You must not remove copyright headers, links and markings from any files included in the Software. You must obtain a permission by the Author if you need to incorporate the Software or any portions of it in open source projects.

NON-COMPETE

You are not allowed to use any portion of the Software in any products that fully or partially resemble the functionality of the Software or otherwise compete with the Software. You are not allowed to use the Software in any products or solutions offering reusable user interface components to end users, developers and third parties without express written permission by the Author. This includes, without limitation, forking, cloning or copying the Software or any portion of it; porting or translating it to another programming language, framework or platform; republishing it under another name; and creating a component library, user interface toolkit or similar product derived from the Software, its source code, its documentation or its examples.

ARTIFICIAL INTELLIGENCE AND TEXT AND DATA MINING

You may not, and may not permit or assist any third party to: use the Software, or any portion of it, including its source code, documentation, examples and demos, to train, fine-tune, evaluate, benchmark or otherwise improve an AI System; include the Software, or any portion of it, in any dataset, corpus, embedding store, vector index or retrieval system that is used by or offered to an AI System, except as expressly permitted in the paragraph below; use an AI System to reproduce, translate, port or re-implement the Software, or any portion of it, for the purpose of creating a substitute for the Software, or to generate a product or service that substantially substitutes for the Software; or carry out Text and Data Mining on the Software.

You may use AI-based coding assistants in the ordinary course of developing your own applications with the Software, including by giving an assistant access to your project files and to the Software's documentation, provided that: (a) you use the assistant under terms, settings or configurations under which the material you provide is not used to train, fine-tune or otherwise improve AI Systems; and (b) you use the assistant's output only in connection with your own applications and only as permitted by this Agreement. For the avoidance of doubt, this permission does not authorize the use of an AI System to reproduce, port, translate or re-implement the Software itself, or any portion of it, for the purpose of creating a substitute for the Software.

In accordance with Article 4(3) of Directive (EU) 2019/790, and with any equivalent provision of other applicable law, the Author expressly reserves all rights of reproduction and extraction of the Software for the purposes of Text and Data Mining. This reservation applies to everyone, whether or not they have accepted this Agreement, to the extent permitted by applicable law. The reservation is also

expressed in machine-readable form in the header of the Software files and on the Author's website through the TDM Reservation Protocol, including `tdmrep.json` and TDM-reservation metadata, and through `robots.txt`.

DISCLAIMER OF WARRANTY

YOU EXPRESSLY ACKNOWLEDGE AND AGREE THAT USE OF THE SOFTWARE IS AT YOUR OWN RISK AND THAT THE SOFTWARE IS PROVIDED "AS IS" WITHOUT ANY WARRANTIES OR CONDITIONS WHATSOEVER. THE AUTHOR EXPRESSLY DISCLAIMS ANY WARRANTY, EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NONINFRINGEMENT. THE AUTHOR DOES NOT WARRANT THAT THE SOFTWARE AND ITS FUNCTIONALITY, RELIABILITY AND PERFORMANCE WILL MEET YOUR REQUIREMENTS OR THAT THE OPERATION OF THE SOFTWARE WILL BE UNINTERRUPTED OR ERROR FREE. YOU ASSUME RESPONSIBILITY FOR SELECTING THE SOFTWARE TO ACHIEVE YOUR INTENDED RESULTS, AND FOR THE USE AND THE RESULTS OBTAINED FROM THE SOFTWARE. YOU UNDERSTAND THAT THE SOFTWARE MAY PRODUCE INACCURATE OR INCOMPLETE RESULTS BECAUSE OF ERRORS WITHIN THE SOFTWARE OR FAILURES BY YOU TO PROPERLY USE THE SOFTWARE. YOU ASSUME FULL RESPONSIBILITY FOR ANY USE OF THE SOFTWARE AND BEAR THE ENTIRE RISK FOR SUCH ERROR AND FAILURES. IN NO EVENT SHALL THE AUTHOR BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES OR FOR ANY DAMAGES WHATSOEVER INCLUDING BUT NOT LIMITED TO DAMAGES FOR LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION, PERSONAL INJURY, LOSS OF PRIVACY OR OTHER PECUNIARY OR OTHER LOSS WHATSOEVER ARISING OUT OF USE OR INABILITY TO USE THE SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. REGARDLESS OF THE FORM OF ACTION, THE AUTHOR'S AGGREGATE LIABILITY ARISING OUT OF OR RELATED TO THIS AGREEMENT SHALL NOT EXCEED THE TOTAL AMOUNT PAYABLE BY YOU UNDER THIS AGREEMENT. THE FOREGOING LIMITATIONS, EXCLUSIONS AND DISCLAIMERS SHALL APPLY TO THE MAXIMUM EXTENT ALLOWED BY APPLICABLE LAW.

DOWNLOAD OF THE SOFTWARE

Genuine copies of the Software are available for download exclusively and only from the Author's web site at www.htmlelements.com and from the Author's own package listings: the npm packages "smart-webcomponents", "smart-webcomponents-angular", "smart-webcomponents-react" and "smart-webcomponents-community" and the NuGet package "Smart.Blazor". If you obtain the Software from another source we encourage you to avoid using it, replace it with a copy from the Author's web site, and notify the Author. If you want to encourage others to use the Software you may do so by providing a link to the Author's web site.

LICENSES INCLUDING SOURCE CODE

In some cases you may purchase licenses which include the source code of the Software. The source code contains the non-minified original JavaScript, HTML & CSS files of the Software. The source code of the Software is an important intellectual property of the Author. Purchasing a license

with source code does not constitute transfer of any IP rights or legal ownership to the Software or its source code. You may use the source code of the Software according to the following conditions:

- You may examine, debug and introduce modifications to the Software and its source code in order to provide better integration with your web sites, applications or other products. You may incorporate the original or modified version of the Software within your products but only in minified (obfuscated) format.
- You are not allowed to distribute, share, disclose or otherwise make available any portion of the original or modified and non-minified Software source code to end users or other third parties, including by committing it to a public repository.
- You agree not to use the Software and/or its source code to plan, design or develop products, libraries or other derivative products that resemble or compete with the Software.
- The section Artificial Intelligence and Text and Data Mining applies to the source code in full.

REMEDIES

You acknowledge that a breach of the sections Package Registries, License Keys, Intellectual Property, Non-Compete, Artificial Intelligence and Text and Data Mining, or Licenses Including Source Code would cause the Author irreparable harm for which damages would not be an adequate remedy, and that the Author is entitled to seek injunctive relief, in addition to any other remedy available to it, to prevent or stop such a breach.

SEVERABILITY

In the event that any section or any part of any section of this agreement, or this agreement as it applies to any persons or under any circumstances, should be adjudged invalid, such adjudication shall not affect or impair the validity of the remainder of this agreement, or the agreement as it applies to other persons, and under other circumstances.

TERMINATION

The Author may terminate this EULA upon your failure to comply with all terms and conditions of this EULA. As a result the Author will cancel your license(s). You must immediately stop using the Software upon termination and remove all of its components from any and all applications or other derivative work developed by you. Termination of this agreement will not limit any other rights of the Author. Any provision of this agreement that is intended to survive termination of this agreement will survive termination, including the sections Intellectual Property, Non-Compete, Artificial Intelligence and Text and Data Mining, Licenses Including Source Code, Disclaimer of Warranty and Remedies. Licenses canceled due to violation of the agreement are non-refundable.

EXPORT REGULATIONS

The Software may be subject to export or import regulations, and you agree to comply strictly with all such laws and regulations. If you have any questions regarding the EULA please contact us by e-mail at: info@jqwidgets.com
